Slits floors and Internal passage are for Defined usage only

ENCROACHMENTS

THINGS THAT ARE NOT AS PER RULES

This Month's Newsletter is dedicated to the 'Encroachment Removal' activities that are happening in the Vizianagaram Municipality.

This edition gives you a glimpse of all the events relating to encroachment removals that are presently in progress in the Vizianagaram Municipality like Removals of structures, Removal of unauthorized constructions, Removal of temporary structures etc.

The Town Planning Department of Vizianagaram Municipality has been removing the on-road encroachments that cause a serious havoc in the town, obstructing smooth flow of traffic and also by decreasing the available carriage way width on the roads.

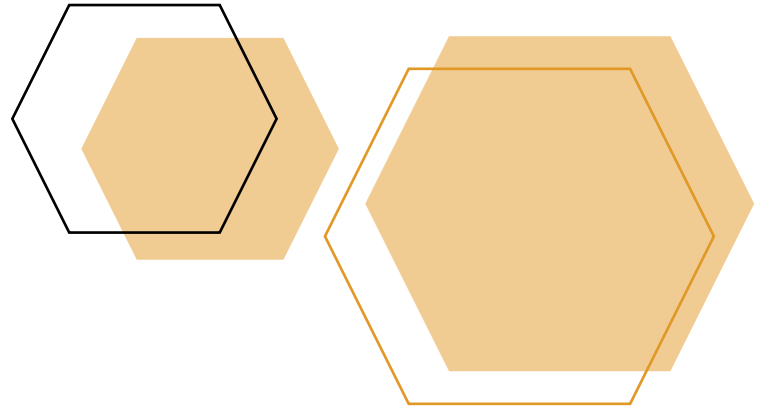

ROAD SIDES

BUDDIES AND OCCUPANCIES

The Town Planning Department of Vizianagaram Municipality has been removing the on-road encroachments that cause as serious havoc in the town, obstructing smooth flow of traffic and also by decreasing the available carriage way width on the roads.

The movable buddies form the endless line of encroachments and blockades on the same roads on which the vehicles ply. All such buddies have been removed with the help of cranes and have been shifted to either some private sites as per the request of the owners to the municipal vacant sites. The Owners of these buddies have been strictly warned not bring them back to the places from where it has been moved.

NO ADDITIONS WITHOUT APPROVALS

UNAUTHORISED ADDITIONAL FLOORS

A common issue with a developing town is the issue of unauthorized additions to the already existing structures. This is an important issue that has to be addressed very serious as it concerns the safety of a lot of people that would be living in those structures.

The Town Planning Department has been actively involved in the removal of such additions from time and again. The removals have been taking place whenever such an issue has been identified.

Removal of semi or finished structures have also taken place to address this major and to warn against any such practice in future.

UNAUTHORISED CONSTRUCTIONS

REMOVAL OF UNAUTHORISED STRUCTURES

The structures that have been constructed against the Andhra Pradesh Building Bye Laws and those structures that have been constructed without getting prior approval from the Town Planning Department have been removed as part of encroachment removal drive.

These structures are also being considered as encroachments as they hinder the smooth working of the city and are mostly prone to structural damage in catastrophic event of any natural calamity.

A team comprising of higher Town planning official oversees these removals and acts in accordance with the predefined and prescribed rules that have to be followed while constructing any structure that will have public usage.

STILT FLOORS AND PASSAGES

THE DEFINED WAY OF USE

Recently, a lot of complaints and issues have been raised regarding stilt floor encroachments and passage way encroachments. These issues are being taken seriously and any such structures are being removed within no from receiving the complaint.
